REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance claims 4 and 13 is that the prior art of record does not teach the latch releasably attaching the first partial shell to at least one of the first and second hubs means via a first pair of profiles of the partial shell.

The primary reason for allowance claims 19-21 is that the prior art of record does not teach the first and second partial shells having pair of profiles which engage the first and second profiles of the hubs and the first and second partial shells define an eccentric outer contour (claims 19 and 20) and that the first and second partial shells define an outer contour having a false radius (claim 21).

The limitations in the claims are not rendered obvious by any proper combination of the prior art known to the Examiner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
